This movie is plain fun . I has nothing to do with the original America Pie , but it is fun to watch . Another try , but better than Band camp and The naked mile , at least funnier.Just after first five minutes i was laughing my ass out , so I decided to call my friend and we would watch it together.We had a few beers and we had fun . You will not find any deep message in this movie , but it 's worth watching . So , lay back and just enjoy .
